Quarterly Heat Treat Sales Forecast

Receive quarterly forecast reports from our economic partner, who has a 94.7% accuracy rate predicting the ups and downs in the economy over the last 60 years.

Nadcap Audit Database

View findings and corrective actions from real audits; helping you improve quality systems and audit compliance.

Statement of Limited Liability

Protect your company from over-extended lawsuits from customers. Limits your liability to 2-times the cost of the heat treat services. This saved an MTI member from a \$5 million lawsuit.

MTI Online Academy

6 technical training certificate programs to help drive a culture of excellence in your plant, operations, and management.

Monthly Sales Program

View sales trends each month to see how your company ranks against your regional and national competition.

Semi-Annual Ops Cost Program

See how you rank and compare against the competition in key heat treat cost metrics.

Online CEO & Executive Discussion Forums

Tap into over 1,500 heat treating executives in MTI's Open Forum, and over 400 CEOs/GMs in MTI Business Owner/Key Executive Forum 24-7. This access gives you the power of the best minds in heat treating to consult for solutions to daily production or ownership issues.

National Meetings

Twice a year, MTI hosts national meetings that bring together the best minds in the industry for 2 days of networking, education, and discussions on the top issues challenging your business. During these 2 days, you get to dig into creative solutions including: productivity, increasing profits, safety, quality, and motivating great employees.

What do MTI Members Have to Say?

"The work MTI is doing in the area of technical specifications is amazing. MTI is represented at all of the Nadcap, AMEC, and AIAG meetings, and now has a system letting us share real-time audit information, which includes finding and corrective action data."

Bob Hill –
Solar Atmospheres of Western PA

"The networking is incredible. The fact you have access to the largest network of owners and professionals in the heat treating world, at meetings and online 24/7, for feedback on day-to-day issues is priceless."

Rich Penrose –
California Brazing, Newark, CA

"MTI's Online Technical Training and Certificate Programs has reshaped our team, increased morale, and engaged everyone in professional development. They love it when they achieve their Qualified Furnace Operator Certificate or the Heat Treat Specialist Certificate. Having more knowledgeable employees has enhanced our productivity."

Dave Secrist – Induction Heat Treating Corp., Crystal Lake, IL
